

13 August 1964

MEMORANDUM FOR: Assistant for Photographic Analysis

Chief, CIA/Photographic Intelligence Division

SUBJECT : Proposed In-Plant Test of the [] "Change Detector" 25X1A

REFERENCE : Memorandum to above addressees, Subject "Proposed Evaluation Trip for the [] Change Detector", dated 9 June 1964 25X1A

1. As presently scheduled, the Change Detector will be ready for in-plant testing during the week of 31 August. If found acceptable the device will then be packaged and shipped to the Center. It will probably arrive at the Center during the week of 14 September.

2. The undersigned has scheduled a trip to [] for the in-plant test. Departure will be on the evening of 31 August. 25X1A

[]
The return trip will probably be made on 3 September 25X1A

3. This visit presents an opportunity to have NPIC photo-
interpreters obtain operating instructions directly from the [] personnel who designed and built the Change Detector. It is, therefore, requested that your activity designate two photo-interpreters to accompany the undersigned for instructions at the [] facility. 25X1A
It is also requested that the Chief, Development Branch, P&DS, be advised of the identity of these individuals by 24 August so that necessary arrangements for motel accommodations and for entry to the [] may be made. 25X1A

Declass Review by NIMA/DOD

SUBJECT: Proposed In-Plant Test of the [] "Change Detector"

25X1A

4. The Development Branch, P&DS is making the necessary arrangements for the designation and instruction of maintenance personnel for the Change Detector.
